

CLC ENGINEERING DEPARTMENT HOSTS 2021 LAKE COUNTY ROBOTICS COMPETITION

OPEN TO Middle and High School Students in Lake County

The Lake County Robotics Competition is a low cost, low barriers introduction to robotics using a competition framework. The competition involves building and coding a Tetrrix robot kit (or similar) to do simple tasks with ping pong balls. Competitors will enter their robot using a video upload in April.

The 2021 competition will be virtual, with students competing individually.

Mentoring and guidance are provided by CLC Engineering students.

Registration and Kickoff: October 2020

Individual mentoring and build sessions ongoing throughout the year.

Finals and Awards: Public Webinar on Tuesday, April 13, 2021.
